

New product

New release. Vertical strip disconnects. Power Utilities series.

With new manufacturing practices, new Omega contacts for 250 and 400a disconnects, revised plastics and molding techniques Jean Muller is proud to release the new PU SL vertical fuse disconnecter series Din 00 160 amp through to Din 3 630 amp with both 3P individual and 3P one action switching units. These will run in parallel with our existing premium range thus giving you more choice, NO EXTRA stock as both ranges are fully inter-changeable including the accessories.
